## Spreading the Word

We all know we are in the midst of an “information war.” How do we fight back against the enemy’s number one “weapon of mass destruction” – mainstream media? By spreading the truth, of course!

Yep, the internet is a valuable source of truth and facts. It is also a huge sewer of lies, misinformation, disinformation, deceit, propaganda, indoctrination, coercion, fear and censorship. Most of our Canadian population has fallen into that sewer. We can share the truthful videos and documents and hope the recipient might feel open-minded enough to look/read/consider it. But all this information can be easily eliminated by the click of a button; out-of-sight, out-of-mind.

We don’t have access to TV or Radio stations to build a platform of truth. No one has found a “Mr. Moneybags” on our side to fund that type of endeavour. Everything we have so far is internet-based, but, as people become severely injured or experience the unexpected death of a loved one, a little window opens up in their minds that starts questioning. 25 million Covid vaccine deaths is a lot of bodies to hide (those are the estimated numbers based on data studied so far).

However, we do have access to at least three newspaper publications in Kelowna: Druthers, The Pandemic Papers and Common Ground. How do these papers get here from Ontario and Vancouver? Every month, volunteers are travelling from those locations and carry the bundles in their vehicles. Volunteers like Sarah usually pick up the skid at the depot and forward a portion of these bundles to other destinations in BC. The papers are then stored at her place and mine for further distribution. This is a co-ordinated effort by several core people who’ve been doing this for almost two years now.

What is it about a hard-copy newspaper that's different from everything else? It's physical, tangible, visual. You can write your own notes on it, circle important things, read it in the kitchen, in the living room, in bed, on the bus, anywhere. You can put it aside and continue reading it another day. You can save it or cut out specific articles for referencing later. You can hand it to a friend to read. It's in your face and you have to make a physical effort to throw it out if you don't want it.

That's why our Sunday newspaper deliveries are so important. December 2022 will be the two-year anniversary of the Jab-Cult. Many doctors stated at the time that the injected could be expected to live for two to five years. 25 million didn't make it to two years. This is Bill Gates' wet dream on steroids coming true. Our job is to spread the truth. And there is nothing more effective than putting a newspaper with relevant flyers into somebody's mailbox.

So how are the papers prepared for delivery? Each week, I stuff thousands of flyers provided by C.L.E.A.R, Unity and Action4Canada to help educate our locals about what is taking place in our community. Then, all we ask is for some volunteers to go for a walk in a specific area for 1 1/2 – 2 hrs on Sundays to deliver these papers. Let's be clear that we are not becoming newspaper-delivery volunteers. We are only delivering to people's mailboxes ONCE. We never do the same area twice. The idea is to drop off one newspaper to every mailbox in Kelowna. Many people cannot be reached this way because they either live in gated communities, have community mailboxes or live in apartment complexes. But there are a lot of mailboxes out there. Once someone gets a paper in the mailbox, the seed has been planted. They now have access to all kinds of links to truthful information and they get to see important flyers that are hard to ignore. What they choose to do with this information is now up to them.

## ***Sunday Paper Deliveries***

A second time-slot has been added for those who cannot make it Sunday Mornings:

Every Sunday at 11:30 am and 1:30 pm is now also an option.

- Sign-up on the Newspaper Delivery list so that you get an email confirming the deliveries for each Sunday. With winter in mind, we will only do this if roads are bare and it's not snowing. The advantage of delivering this time of year is that nobody is hanging out in their front yards so you don't have to worry about confrontations.
- We meet at the Capri parking lot between A&W and DeDutch Pancake House
  - Bring a large bag for carrying the papers if you want
  - Grab a free small Kelowna mapbook that can help you get situated. Your cell phone will be tracking and tracing you. Learn how to read maps again.
  - You will be provided with a printed google map of the area you will be delivering to. Bring a yellow marker to indicate which streets you completed. You may run out of papers or you may end up with extra.
  - We ask that with every paper you deliver, you remove the inserts and place them in the mailbox in front or behind the paper. That way, someone who may hastily throw out the paper will still be forced to see each individual flyer
  - Please deliver only one paper per mailbox, regardless if you have different papers (we usually have a combination of different papers and editions). Some houses may have up to 4 mailboxes; put one paper in each as they are for different tenants
  - Dress warm and wear practical footwear
- Please always bring back your filled-out map and extra papers to the CLEAR booth on Saturdays or the following Sunday so we can keep track of the areas that got done and restock those papers

- We will keep doing this every Sunday, weather-permitting, until the majority of our 150,000 population has been reached. The more people step up to help, the faster this will get done!

## **CLEAR Anonymous Surveys**

On Nov. 19/22, many people took surveys home to fill out. There was a total of 100 surveys and 22 are still missing. Please be sure to fill it out and return it to the CLEAR booth this Saturday, Dec. 3/22.

Thank you to all who have filled it out so far!

### **The psychological war on humanity**

by Bruce Orydzuk

Since the beginning of time, there have always been men who want to rule the world's population by deceit, only to reap the monetary rewards from slavery. The plan has always been the same; acquire massive wealth to control the masses.

We have all been slaves to this system since we were born. Many of us have gained the knowledge from others who have exposed it all. We are very grateful to those who have risked it all to expose the truth and reality of the evil world we live in.

The war against humanity has always been around, it was just presented by different means over the past couple of thousand years. Every system in place has been created for those in power to control the global population by a form of dictatorship hidden under the guise of a democracy.

The Chinese Communist Party has exposed this dictatorship to the rest of the world by controlling the Chinese people in every way possible. China was an experiment in complete control, and if the CCP could get away with it without massive rebellion, this model could be used by others to take over the entire global population.

The Bilderberg group has been working on plans for a New World Order and One World Government for decades. Using the CCP model for total domination and global control of the entire world's population, they worked on economic plans to create massive wealth for the Chinese Communist Party.

I saw this plan in action back in the early 80's as the company I worked for opted to have Chinese companies create products we made locally, which took away work and wealth from Canadians, only to destroy our economic growth. Good quality North American-made products were replaced with low quality Chinese "knock-offs" and offered at lower prices. The system promoted "made in China" which made the CCP more powerful by creating massive wealth using slave labor.

The CCP became one of the richest nations by producing poor quality products using the slave labor system. Most Chinese-made products are now known to be totally disposable as they have a very short life expectancy and not worth repairing, and all by design to fuel their ever-growing economy. "Dollar stores" popped up *en masse* all across the globe selling low-quality disposable products which helped create massive wealth for the CCP. China has conquered the electronic market, and all by design. We need to stop supporting "made in China" products.

Somewhere around the mid 1990's the globalists came up with a plan for total global control, a complete takeover of society without the use of force. A plan so evil that most of the world's population is still not aware of it today.

As most wealthy inventors know, if you can create, build and sell a product that everyone will be addicted to and can't live without, you will reap the rewards

of your efforts. If your creation is marketed as such a convenience to the masses with a high element of fun and adrenaline rush, you will ensure that nearly everyone on the planet will want one. It will become so addictive that nothing will deter owners from being without it, ever!

What if that invention, which happens to be the biggest addiction in the history of the world, was created for ill intent under the guise of convenience and fun? The reality is that the invention of the cellular phone was to be used against the entire global population to control you and your future. Updated versions have new software ready to be used against you when the time comes. These devices are not safe, they do not ensure your privacy, and in reality, are collecting data which will be used against you in the future.

Many tests have taken place to determine mass compliance over the last few years. The Pokemon App was a good example. Create an App to see how many would actually comply with the test to use the new game to determine how many cellular users would download and use the tracking device. The test worked, as we saw masses of brainwashed people falling into the trap of compliance. The novelty wore off, but the test was conclusive to mass compliance.

A similar test was demonstrated by the media establishments when they created the toilet paper scare in 2020 to see how many people would rush out and buy toilet paper amidst a fake pandemic without questioning why. These tests proved that people could easily be manipulated by nonsense.

The next tests were forceful compliance checks. The ArriveCan & Vaccine passport Apps were introduced to see how many cell phone addicts were willing to use their devices against themselves, and guess what, far too many sheep complied.

Unfortunately, the next App the globalists are considering will not be a test of compliance, but will be a mandatory necessity to function and survive in

society. The digital ID and banking Apps will soon be reality if we don't make an effort to stop this evil plan.

So, I ask all of you: are you willing to get rid of your electronic addiction immediately to save humanity from being controlled by the most evil demons on earth?

If everyone canceled their cellular plans and got rid of their phones, this would become a war we can win as they are not counting on this to happen. So, it's time for all of you freedom fighters to actually make a difference and help fight the war by acknowledging that by owning a cell phone, you are complying and facilitating the globalist takeover.

Please do your part to save humanity from tyranny, it's not only free, but think of all the money you will save from not supporting the corruption. Switch to a flip phone to maintain communication. We all lived without these devices before and we can do it again, even if it's only until we take back our Country.

Each Sunday, for as long as we can, we are delivering Druthers/Pandemic Papers Publications, including CLEAR rally cards and other important inserts such as our Masks/PCR brochure, and the recently released UNITY Health & Sciences brochure, for door-to-door delivery to all the mail boxes in Kelowna

**See these inserts below**

Though labour intensive, the outings are enjoyable and productive

## But we need YOUR help!

There is simply no other way we can reach so many people who have believed the Gov't/MSM narrative/lies

Join us each Sunday by signing the CLEAR Newspaper Delivery Sign Up Sheet at the CLEAR table & providing your EMAIL address to Linda & Nikki.

We need about 8-10 people to deliver about 100 flyers each - only about 90 min.

Each Sunday we will meet at a specified location to be announced by email on Saturday night. Start times will be 11:30 a.m.

**Many recipients continue to thank us for delivering these to their doorsteps!**

**Risks vs. Benefits of  
Covid-19 Vaccines**

On March 1, 2022, by court order, the FDA released the *Pfizer Post-Authorization of Adverse Event Reports* document, representing the initial three (3) months of the COVID-19 vaccine rollout from 01-Dec-2020 to 28-Feb-2021. The following summarizes the outcomes of the known international *Pfizer Adverse Events*, including links where the court ordered Pfizer documents can be accessed.

Overall Adverse Events (pages 16-25); provides a summary review of cumulative cases in the first 3 months after the Covid-19 vaccine rollout:

- 158,893 adverse events resulted from 42,086 reported cases
- Of the 42,086 case reports:
  - 1,223 list DEATH as the outcome
  - 9,400 list UNKNOWN as the outcome (22% of the total 42,086 cases)
  - 11,361 list NOT RECOVERED at the time of the report (unknown final outcomes)
- Majority of Adverse Events include:
  - nervous system disorders (25,957), musculoskeletal/connective tissue disorders (17,283)
  - gastrointestinal disorders (14,096)
  - anaphylaxis, facial paralysis, COVID-19 infection, cardiovascular, dermatological, hematological, hepatic and autoimmune conditions

## DANGERS OF WEARING A MASK:

- they do not stop viruses (<2.5 microns)
- can increase CO<sub>2</sub> levels
- reduces oxygen levels by up to 15%
- causes anxiety, headaches, stress & fear
- impedes or prevents communication
- encourages anonymity
- is dangerous when exercising
- false sense of security
- there are no minimum standards of efficacy
- breathing in mask fibres and toxic sprays added in production

## RESULTS OF WEARING A MASK:

- makes reading facial expressions difficult, especially for children
- makes people less empathetic
- increases facial touching, spreading germs and viruses
- inserts large waste into the environment
- increases bacterial pneumonia
- amounts to submissive behaviour
- is abusive on small children
- 65+ studies confirm dangers

## LEGALLY:

If COVID is so deadly, why are no bio-hazard mask disposal bins required?

Cash is not dangerous. If you can tap your card, you can use cash

Hugging is not dangerous. In fact, we need hugs to survive and thrive

Lockdown was in 2020 and we were told "Two weeks to flatten the curve", yet hospitals have always been and remain almost empty, and media now talks only about cases, not deaths

If, as Bonnie Henry admits, the vast majority of all deaths are in private care homes, not the public, than why are the public's rights restricted or denied?

Common law is based on the supremacy of the individual, NOT the collective

# COVID-19 \* PCR Test \*

## The Weakest Link

Kary Mullis - Inventor of PCR Test -  
Nobel Prize Winner Chemistry 1944-2019

"The PCR Test is a DNA test that does not detect viruses or illnesses. It doesn't tell you that you are sick and doesn't tell you that the thing you ended up with really was going to hurt you."

PCR is an invention, not a test. It is an amplification process for DNA. This is done by "cycles" for DNA to exponentially replicate. Each gov't sets its own arbitrary number of cycles (Ct). They can and do manipulate the results. The more cycles performed the greater risk of false positives.<sup>1</sup>

30 cycles is the max to be used.<sup>2</sup>  
Dr. Mina, Epidemiologist, Harvard University-Stephen A. Bustin, Prof. Molecular Biology, & world expert on the PCR test

BC admits to using 35-40 cycles

25 Ct, error rate=30%  
30 Ct, error rate=80%  
35 Ct, error rate=97%

2. [thevaccinereaction.org](https://thevaccinereaction.org) Dr. Mina, epidemiologist Harvard

The test results are NOT positive/negative. "...but simply the number of cycles required to detect sufficient material to beat the arbitrary cutoff between positive and negative. If positive means infected and negative means uninfected, then there are cases of people going from infected to uninfected and back to infected again in a couple of days."<sup>3</sup>

Elon Musk tested + and - twice in the same day! Even a papaya tested positive!

"PCR tests cannot distinguish between inactive viruses and 'live' or reproductive ones. What that means is that PCR tests cannot detect infections."<sup>4</sup>

A BC molecular biologist confirmed that at 35 cycles: "...we're finding meaningless fragments that say nothing about the infectivity of the patient...possibly as many as 90 percent of those testing positive for COVID-19 are probably not infectious."<sup>5</sup>

COVID-19 is an RNA virus. This must be converted to DNA by PCR. This is "...widely recognized as inefficient and variable" by up to a factor of 10. Because each "cycle" doubles, even a small variation is magnified and causes further unreliability.<sup>6</sup>

Manitoba gov't court expert agrees >56% of positive "cases" are not infectious; people can test positive 100 days after symptoms are gone!<sup>7</sup>

7. [Gateway Church v HMTQ](https://www.gatewaychurch.ca/HMTQ) 20210521 Dr. Jared Bullard

Dec. 2020 - The Portuguese Court of Appeal ruled the PCR test cannot be relied upon in court to quarantine anyone or prove a person is infected.

9 Scientific reasons why PCR is useless:

1. Excessive primers used in test
2. The test is highly variable, non-specific
3. Can't tell difference between dead & live viruses
4. The annealing temp. is variable
5. Arbitrary Count values in different labs
6. No validation at molecular level
7. No positive control for specificity; no negative control to exclude other coronaviruses
8. The test is not standardized in any way
9. Scientists recommending tests, were not peer reviewed & in conflict of interest.<sup>8</sup>

To confirm a person is infectious, a culture test must be done to see if other cells will be infected. This is never done!

"PCR test cannot tell you if you have virus or dead chunk of it. No other virus ever on this planet has been accompanied by so much testing and has created so much nonsense and panic."<sup>9</sup>

Dr. Stadler, Prof Emeritus & Former Director of Institute for Immunology, Bern University

The W.H.O. now warns experts & countries not to rely on the PCR test, as it is unreliable on its own!<sup>10</sup>

We all have an immune system that can fight and overcome any COVID-19 threat if its healthy and we nurture it. Humanity has survived naturally for untold thousands of years. Now suddenly billionaires, certain government officials and medical officers are demanding us to accept an experimental chemical shot with no demonstrated health benefit. What's in it for them? We must take control over our health as no one, is truly responsible for it – except us.

Now that you know the truth and the criminal deception perpetrated on us, what are you going to do about it?

Thank you for reading this open letter and letting me share my expertise. I ask that you share this with the public via media statement as we are all committed to promoting good health for all Canadians.

# Masks for COVID-19?

**Chris Schaefer is a Canada-wide Court-approved Expert Witness on the subject of masks**

**Edmonton Respirator Expert Has Concerns – Updated**

**Re: Government Health Services mandate that all Canadians wear an N95 disposable, surgical or non-medical mask in public to reduce the likelihood of transmitting or developing a condition from the coronavirus – known as COVID-19.**

I have been teaching and conducting respirator fit testing for over 20 years and now currently for my company SafeCom Training Services Inc. My clients include all levels of government, our military, healthcare providers, educational institutions and private industry. I am a published author and a recognized authority on this subject.

## Respirator Masks Engineered for Breathing

The mandated disposable N95, surgical and non-medical masks are not actually by definition, even masks at all. Masks that cover mouth and nose must have engineered breathing openings that allow the easy flow of air in when we inhale and easy flow of air out when we exhale. Examples of masks include respirator masks, halloween masks, scuba masks and hockey goalie masks. Lacking engineered openings, the mandated closed cover, traps hazardously high concentrations of exhaled carbon dioxide thereby causing the restriction of available oxygen, which the wearer is forced to inhale. It is very hazardous to re-inhale your exhaled carbon dioxide. These covers that are mandated are simply – breathing barriers. I also refer to them as closed covers and instruments of self-suffocation.

## Breathing Barriers Trap Carbon Dioxide and Lower Oxygen

By lacking engineered inhalation and exhalation valves – unlike a real respirator, these closed cover breathing barriers cause the wearer, exposure to high carbon dioxide and low oxygen levels that are rated as Immediately Dangerous to Life and Health (IDLH).

Normal carbon dioxide in air is approximately 400 PPM (parts per million). In April 2021, Health Canada set the indoor exposure limit to carbon dioxide at 1000 PPM. [Residential indoor air quality guidelines: Carbon dioxide - Canada.ca](#). I have personally measured carbon dioxide levels within two minutes of wearing at over 40,000 PPM. Normal Oxygen in air is 20.9%. I have personally measured oxygen levels within two minutes of wearing as low as 17.5%. What the ongoing effects of these hazardous air exposures will have on the wearers' health will vary. However, if I were to measure these exact same levels inside a confined space, in which workers were present, I would have to initiate an immediate evacuation alarm to get them out.

If hazardous air for yourself and your children isn't enough of a concern for you to ditch the breathing barrier, then I have a couple more good reasons for you.

## Closed Covers Breed Harmful Bacteria

Besides trapping exhaled carbon dioxide and creating a low oxygen atmosphere, these breathing barriers also trap heat and moisture. I know you have been told that the cover catches droplets that stop virus transmission, however that is impossible as 99% of all viral particles are airborne and enter our eyes and pores of our skin just as easily as mouth and nose. They travel through the air and can stay airborne for hours, if not days, depending on size and air movements. It is impossible for any filtering respirator, much less a piece of cloth or paper fitted over your mouth and nose, to protect you or anyone else from viral transmission.

By trapping heat and moisture, the inside material of your cover stays warm and moist, which is the perfect environment for harmful bacteria to form, grow and multiply, right in front of your mouth and nose. These closed covers are all bacteria generators. What effect does this have in hospitals on patient infection and poor decision making by health care professionals? Does this bacteria generator increase the risk of patient infection? Does the forced low oxygen atmosphere caused by the closed cover contribute to the poor decisions made by health care professionals that result in 28,000 deaths in Canada every YEAR due to preventable medical errors? <https://www.rcinet.ca/en/2019/10/28/thousands-die-from-medical-errors-yearly-notes-advocacy-group/>

Trapping heat and moisture also causes the degradation of the material of the cover which can cause the user to inhale the chemicals and fibers used in the manufacture of the cover.

## Our Children at Risk

Wearing a breathing barrier will only harm your health and especially your child's health. Why? Because children have a higher breathing rate than adults and require oxygen more frequently. Forcing your child to experience an oxygen deficient atmosphere is torture. [https://www.dignity.dk/\\_/torture\\_torture-by-asphyxiation/](https://www.dignity.dk/_/torture_torture-by-asphyxiation/) This does not include the forced chemical sanitizers our children our subject to in schools several times a day.

These sanitizers falsely called "hand" are poison. Type in the brand name and product name and the letters mds into an internet search to learn the truth. Anyone that has completed WHMIS training knows this. Common warnings regarding this product include: Wear gloves and goggles when handling. If skin contact occurs, flush with running water at least 15 mins. Remember, many chemicals, including sanitizer, can enter our blood and organs simply through skin absorption, the exact same way that nicotine and testosterone through a medication patch do.

Lastly, read the sanitizer label. It kills 99.99% of BACTERIA, not viruses. It has NO EFFECT on viruses. We have a lot of healthy bacteria in our bodies for digestion and other functions. What affect does this absorbed poison have on that?

So if breathing barriers and sanitizer cause us harm, despite what you have been told by Government Health Services, how are you supposed to protect your health? What about the age-old, tried, tested and proven method of a healthy diet, clean water, avoidance of man-made foods, plenty of fresh air, sunshine, moderate exercise, restful sleep, laughter and avoidance of stress?

# *New signs???*

Even though COVID-19 restrictions are, for the most part, no longer in effect, other freedom issues have arisen as gov'ts use the cover of COVID-19 to introduce other more formidable liberty restrictions, including privacy violations.

Freedom is a multi-generational struggle – our legacy is to leave a better place for our children, not simply to quit after an issue appears to be over and anger diminishes; and of course, it rarely is truly over.

David Lindsay,

Respondent

**Notice of Application**

Take notice that an application will be made by the Defendant, David Lindsay on March \_\_\_\_, 2023 at 9:30 a.m. at the Kelowna Courthouse, 1355 Water St., Kelowna, British Columbia, or on such other date as the Court may set, for the following relief:

1. Is policing a matter coming within the class of subjects encompassed by s. 92 (14) of the *Constitution Act* 1867, aka the *British North America Act* 1867, ie: the administration of justice in the province?

**Yes**

2. Is the *Royal Canadian Mounted Police Act*, R.S. c. R-9, s.1, in pith and substance, legislation in relation to policing, a matter coming within the class of subjects encompassed by s. 92 (14) of the *Constitution Act* 1867, aka the *British North America Act* 1867, ie: the administration of justice in the province, and thus unconstitutional and/or *ultra vires* Parliament, as the case may be?

**Yes**

3. Are sections 18 (a), (b), (c), (d), and 20 (1), (2), (3), (4), (5), of the *Royal Canadian Mounted Police Act*, R.S. c. R-9, s.1, in pith and substance, legislation in relation to policing, a matter coming within the class of subjects encompassed by s. 92 (14) of the *Constitution Act 1867*, aka the *British North America Act 1867*, ~~ie~~: the administration of justice in the province and thus unconstitutional and/or *ultra vires* Parliament, as the case may be?

**Yes**

4. Are s. 3, 14 (1), (2) (a), (b), (c), (d), and (3) of the *British Columbia Provincial Police Act*, R.S.B.C.1996, ~~ch.~~ 367, insofar as they purport to authorize the Minister, with the approval of the Lieutenant Governor to enter into and carry out agreements with Canada authorizing the Royal Canadian Mounted Police to carry out the powers and duties of the provincial police force, and *inter alia*, deem the Royal Canadian Mounted Police to be a provincial police force, unconstitutional and/or *ultra vires* the Legislature of British Columbia as the case may be, as being or amounting to a delegation, and/or an improper or unlawful use of legal fictions?

**Yes**

5. Is the Memorandum of Agreement between the GOVERNMENT OF CANADA and THE GOVERNMENT OF THE PROVINCE OF BRITISH COLUMBIA, dated April 1, 2012 and Order in Council P.C. 2011-1344, November 17, 2011 Governor in Council, which purports to authorize the Minister of Public Safety and Emergency Preparedness to enter into this Agreement on behalf of the Government of Canada, and Order in Council by the Lieutenant Governor of British Columbia, insofar as they permit Canada to establish a Provincial Police Service within the Province, hereinafter identified as the Royal Canadian Mounted Police (RCMP), with the powers and duties of a provincial police force to enforce provincial and federal criminal offences, unconstitutional and/or *ultra vires* both the Lieutenant Governor, said GOVERNMENTS, as the case may be, to enter into?

**Yes**

6. That the aforesaid Memorandum of Agreement and impugned statutory provisions, are unconstitutional and/or unlawful and/or of no validity as the case may be.
7. That the charges in this case be quashed for want of jurisdiction to swear the Information before a Justice of the Peace.

8. Costs.
9. Such further and other relief as may be requested and this Hon. Court may grant.

The following are the general particulars to be argued for this challenge, pursuant to s. 8 (4) (d) of the *Constitutional Question Act*, R.S.B.C. 1996 CHAPTER 68, with respect to the *Royal Canadian Mounted Police Act* and the *Police Act* of British Columbia, including but not restricted to:

10. The *Constitution Act* 1867, formerly the *British North America Act*, was passed by the English Parliament in 1867.
11. This English statute did not federate the provinces into one country called Canada, nor is it a Confederation document, as it is erroneously called.
12. Canada was, and remains a Dominion, a union of Provinces under the Crown of England.
13. The exclusive powers of the Provinces were set out in s. 92 of the said *Act*, and the remaining, residual powers of Parliament were in s. 91, with examples set out therein. A proper interpretation of s. 91 and 92 is important.
14. The Provinces were given the exclusive power to pass laws in relation to matters in the itemized list in s. 92. The administration of justice, including policing, was an exclusive Provincial power. There was no analogous or expressed power given to the Federal Government, or Parliament, to create a police force, for use in any of the Provinces.
15. The RCMP were originally a para-military police force known as the North West Mounted Police (NWMP), and then subsequently the Royal North West Mounted Police (RNWMP). The enabling legislation for the RCMP was passed on May 23, 1873.
16. In 1905, upon Alberta and Saskatchewan becoming provinces of Canada, the first agreements were entered into, reluctantly by Prime Minister Laurier, for the rental of the RNWMP for those newly formed Provinces.
17. Members of the RNWMP already had their bags packed and knew that they were being transferred to the Territories to work as that is the only area that Parliament could utilize a police force.

18. The Royal Canadian Mounted Police were formed in 1920, absorbing the Dominion Police and Royal North-West Mounted Police.
19. British Columbia signed its first agreement with Ottawa for use of the RCMP in 1950.
20. In 2012, both Canada and British Columbia, following upon the expiration of previous such agreements, entered into a Municipal Police Service Agreement (Agreement), with a term ending March 31, 2032.
21. This Agreement remains in full force and effect to the present date.
22. G. Stroeder, a Special Constable with the RCMP, swore out an Information against the Accused, on December 8, 2021, alleging a *Criminal Code* offence.
23. The history of policing in English and Canadian history has always been restricted to that of a local level. National police forces to enforce local, Federal and/or criminal laws are unknown to the common law and to this country and are a Constitutional anomaly. This was incorporated into the *Constitution Act 1867*, aka the *British North America Act 1867*. There is no reference in any debates prior to 1867 at either the Quebec Conference or London Conference, during passage of the *BNA Act* nor thereafter, of policing being encompassed or intending to be encompassed by Federal legislation, exclusively or duplicitous with Provincial legislative powers.
24. There is no legitimate concept of 'Federal policing' or where the RCMP can police for Federal legislation, in the Provinces. Such a concept runs afoul, for example, of enforcement of the *Criminal Code* which would leave all Provinces either not policing and enforcing the *Code*, or being unlawfully duplicitous with the Federal Government.
25. There are only three (3) areas of overlapping legislative jurisdiction between Canada and the Provinces: agriculture, immigration and public works. Policing is not one of them.
26. Parliament has no jurisdiction to pass the impugned sections of the *Royal Canadian Mounted Police Act*, R.S. c. R-9, s.1 as this is legislation which is, in pith and substance, in relation to the matter of policing in the Province, which comes exclusively within the class of subjects identified as the administration of justice, pursuant to s. 92 (14) of the *British North America Act 1867*.
27. Parliament has no jurisdiction to pass the impugned sections of the *Royal Canadian Mounted Police Act*, R.S. c. R-9, s.1 insofar as they purport to authorize Canada to enter into Agreements with any

of the Provinces, including British Columbia, to permit a Federal police force operating in the Province.

28. Parliament has no legislative jurisdiction to create and/or constitute its own police force to operate in the Province and cannot, by way of legislative authorization to enter this said Agreement with the Province of British Columbia, permit its own police force to operate in the Province.
29. This Agreement, as with previous similar agreements in British Columbia and other provinces, was entered into primarily for economic expediency, and political reasons.
30. There is no presumption of regularity when jurisdiction is challenged. It is incumbent on the person or party (or Government) claiming jurisdiction, to prove it.
31. Applicable principles of Constitutional and statutory interpretation do not permit any interpretation of s. 91 and 92 of the *Constitution Act 1867*, aka the *British North America Act 1867*, that would permit Parliament to legislate in relation to the matter of policing, ie: for a Federally constituted police force to exist and/or enforce Provincial, Federal or criminal laws in the Province of British Columbia.
32. The only area where the RCMP have jurisdiction to operate, and where Parliament can pass legislation in relation to the matter of policing, is in the Territories.
33. The use of legal fictions in s. 14(2) of the B.C. *Provincial Police Act*, is an unreasonable, unconstitutional use of legal fictions, to accomplish indirectly what both levels of Government could not do directly. *Nemo potest facere per obliquum quod non potest facere per directum.*
34. *Res judicata* and/or *estoppel* are applicable to all Respondents, inasmuch as the Supreme Court of Canada has, on no less than five (5) occasions, held that the power to pass legislation in relation to the policing in the Province, ie: of enforcing all Imperial, Federal and Provincial laws, is *exclusively* vested in the Provincial Legislatures, not Parliament.
35. Both levels of Government, via the wording of the said Agreements purporting to authorize the RCMP to operate in the Province, freely concede that, in pith and substance, this is in relation to the matter of policing, encompassed within the class of subjects in 92 (14) of the *British North America Act 1867*, *Constitution Act 1867*, the administration of justice in the Province. Both Provincial and Federal Governments are estopped from arguing or submitting any position to the

contrary.

36. The Supreme Court of Canada in 1950 has conclusively and repeatedly held that delegation of legislative powers is not permitted by the *British North America Act 1867*, aka the *Constitution Act 1867*. “*The Parliament of Canada and the Legislatures of the several Provinces are sovereign within their sphere defined by the British North America Act, but none of them has the unlimited capacity of an individual. They can exercise only the legislative powers respectively given to them by sections 91 and 92 of the Act, and these powers must be found in either of these sections....no power of delegation is expressed either in section 91 or in section 92, nor, indeed, is there to be found the power of accepting delegation from one body to the other; and I have no doubt that if it had been the intention to give such powers it would have been expressed in clear and unequivocal language. Under the scheme of the British North America Act there were to be, in the words of Lord Atkin in The Labour Conventions Reference (1), ‘watertight compartments which are an essential part of the original structure.’” Neither level of government, independently or cooperatively can do indirectly what it cannot do directly.*
37. Any purported judicial change to this finding of “*watertight compartments*”, amounts to a change to our law without jurisdiction to so do, and further violates the intentions of the drafters of this English statute. Again, economic expediency and/or politics are not grounds to re-write the *Constitution Act 1867*.
38. Such further and other particulars and grounds as may be put forth by the Defendant, who is not bound nor restricted by the points listed herein and who reserves the right to amend any and all parts of this Notice at any time, including by way of his future written position.
