Update -- *Petition to ban Kelowna Protest/Rallies*

The Petition and supporting Gov't affidavits to ban our protest rallies have now been served upon David, on Monday at 4:30 p.m. There will be 21 days to file a reply under the rules.

All documents and pleadings will be placed on our website for public viewing, as soon as service possible. Details of our position cannot be released just yet, however it will be interesting to expose their corruption as we move along.

Unfortunately, this case will have significant repercussions for every protest rally in British Columbia, and indeed, in Canada, as it is being heard in a superior court in the province.

Please stay tuned for more updates.

NOTE: As was stated to the Kelowna Protest this past Saturday, information was leaked to us from a legitimate Gov't source, that both the B.C. Gov't and the Feds, have been threatening to cut off funding and/or approval for projects to the City of Kelowna, if the City does not somehow stop our Protests!

This was an amazing revelation. Folks, I don't know if you appreciate the significance of this. The Okanagan has the lowest vaccination rate in the province and one of the lowest in Canada. The interior as a whole, has some of the lowest vaccination rates as well. Everywhere in the Interior, including the Okanagan, had the lowest use of face diapers.

Everyone who has supported our Protests over the past three years has contributed to scaring the hell out of all levels of Gov'ts.

Simply put, if we had not had any significant effect on educating people on the COVID-CON, vaccine and mask issues, and other rights and freedoms issues, and imparting actual freedom activism, neither the Prov nor the Feds would bother with these Kelowna Protests. In politics, nothing happens by chance.

Rest assured, our Protests have had such an amazing effect in support of freedom and opposing Gov't tyranny at all levels, that they are pulling out all the stops with this Petition to try and stop us.

Their further objective is to make David Lindsay publicly look bad in the hopes that people will lose faith in all leaders, not just him. Make no mistake this is a legal, public relations attempt as well. After this, the Gov'ts will want to spread the word to the media that all leaders were pushing disinformation and are lawbreakers., when in fact and law, it is THEM who are breaking the law.

The optics behind this Petition are so obvious. But we will win and will keep you updated as we move along.

R v David Lindsay s. 266 Criminal Code Assault

After an incredible two days in court March 1st and 2nd, everyone finally got to see what the fuss is all about – and the shock even in the media was visible everywhere in the courtroom. Even opposition media, who came out in droves hoping to see some incredible fight scene to label me with, were amazed and dismayed at what truly occurred. The video, taken by one of our loyal supporters clearly showed that **THEY** (security guards) pushed into David, not the reverse. And more evidence is yet to come.

[Print the SMART Cities NOL](#)

Are SMART Cities really so smart? Do 15 Minute Cities make them sound SMARTer? Does spending trillions of taxpayers dollars on this money laundering scheme sound like a good deal? If the answer is no, no and no then you need to get involved and make your voice heard.

In response to the global nonsense **Action4Canada** has created another amazing resource to help you educate elected officials as they are being sold a bill of lies in order to get them on board with SMART/15 Minute cities. This is what they are being told:

"A 15-minute city does not confine us to our neighbourhoods or restrict our ability to travel. If your city adopts a 15-minute city approach, it simply means that it will become more possible and pleasant to meet more of your day-to-day needs, like buying groceries, within a short walk or bike ride from home if you want to. It means creating the conditions for local businesses, that rely on local custom, to thrive. Millions of people in cities around the world already live like this, and always have done; others are forced to travel to meet basic needs. Being able to do more close to home does not change your freedom to travel further whenever you would like to."

Sounds good right? Sign me up. But wait a minute, we know that the globalists are master manipulators and wordsmiths, **but** does your elected official know that? Do they know what is really going on? In some instances yes, but in many instances, no. They genuinely believe they are doing what is best for the planet and for the future of our kids.

This is your opportunity to meet with your mayor and council, MLA/MPP and MP and provide them valuable information. It is also the right time to be proactive and serve them the new Notice of Liability advising them that if they take part in developing a SMART City/15 Minute City they could be held personally liable. SMART Cities/15 Minute Cities create a threat to our security, they put Canadians at risk of serious harm, violate privacy and citizens' guaranteed rights and freedoms

Read the [Notice of Liability](#) and then please serve every elected official in your community.

Remember: Freedom of speech, thought, belief and the right to life, liberty and security of the person are guaranteed. We do not need to beg, barter or ask for them...these are God-given inalienable rights and ours for the taking.

Climate Change, Kids and 15 Minutes Cities

When: Wednesday, April 5, 2023 4:30pm PST/7:30pm EST [Register in Advance](#). The zoom doors open at 4:30pm PST and the Empower Hour begins at 5pm PST/8pm EST

On the next Empower Hour Tom Harris, the Executive Director of [International Climate Science Coalition – Canada](https://www.icsc-canada.com/), joins Tanya to discuss the unscientific climate change propaganda that passes for education in today's school system. This situation is serious as it compounds the doom and gloom young people are subjected to daily by mainstream media. Take President Joe Biden's recent statement to the press that: *"If we don't keep the temperature from going above 1.5 degrees Celsius raise, you know, we're in trouble. That whole generation is 'damned.' I mean, it's not hyperbole."*

Biden's alarmism is not just scientifically wrong; it is also the height of irresponsibility as it contributes to rising rates of depression and anxiety among young people across the western world. Tom will recommend steps that parents can follow to protect their children from all this. We CAN help make our sons and daughters strong, optimistic survivors who succeed even in the midst of a culture that increasingly values victimhood and negativity.

Tanya and Tom will also discuss the next threat on the horizon: our liberty – 15 Minute Cities, which will do nothing to help the climate but will indeed give woke bureaucrats more control, which is, of course, one of the main goals of the fictitious climate emergency. Learn more about our guest and share the [Empower Hour invite HERE](#).

We CAN Win the Climate War!

Action4Canada's goal is to build Chapters in every city and town across the nation. In so doing, we are building communities of like-minded citizens who are actively involved in the battle against government and global corruption, in order to preserve our freedoms and democracy. One of the massive battles is the fight against the climate change cult who have established a faithful following based on lies.

Tom Harris is an expert on the climate and has created resources and an effective strategy that aligns with **Action4Canada's** initiatives in educating, equipping, empowering and mobilizing citizens. **A4C** is partnering with Tom and together the strategy is proving to be successful. Learn more on how to fight climate alarmism [HERE](#).

<https://youtu.be/aq-9-XfPzwM>

Randy Hillier has truly captured the simple realities of the 15 Minute City. "You will be happy and have nothing", but the globalists will be happier and own and control everything. We cannot let this happen.

Solution: [JOIN](#) an **Action4Canada** Chapter and become actively involved in your community. Also know who you are voting for in upcoming elections and where they stand on these critical issues.

Workshop: How to form a Community Survive & Thrive Group hosted by Joshua (JD) Lemmens

Location: GESS Community Gym, Lake Country BC

Unity Health & Sciences are fortunate to have been able to help organize this unique opportunity. Look forward to seeing you there!

About the Course:

This comprehensive course will provide you with the knowledge and skills you need to form a survival group, build trust and cooperation, and develop a survival plan that is simple and easy for everyone to follow. Learn how to protect yourself, build a solid group that works together well, and THRIVES in challenging situations.

A prepared and strong community may be the deciding factor in how successfully you will emerge from future hardships. Every successful emergency plan should include a network of people who, collectively, have all of the skills, talents, and resources needed to THRIVE during a disaster.

The facilitator, Joshua JD Lemmens, will cover topics such as the importance of communication, fortification, security, food and water supplies, self-sustaining skills to contribute to a network as well as leadership and role assignment within your group; how to earn an income, barter and trade as your new currency, food planning and preparation, hygiene, and more.

How to Register

Seating capacity is limited, and this workshop will sell out quickly.

Register with full payment either by:

1. E-transfer (must put first & last name in comment / notes box):
financial@unitymovement.ca; or

Fundraising and Donations

In the absence of rallies every Saturday, we don't get the funding we used to that allowed us to print all the resources we provide at the CLEAR booth, as well as the inserts that go into the Druthers newspapers for our Sunday paper deliveries. Thanks to your past donations, we have delivered over **8000** copies of Druthers, plus various inserts, in Kelowna and W. Kelowna, with lots more to go!

Future protests are being strategically planned right now for City Hall, the courthouse, and other locations.

Many people believe that the COVID-19 issue is over – and it is not. Freedom is a multi-generational struggle, where we hope to leave a better place for our children. Other serious issues are lurking ominously in the near future that we will need to focus on: 15 min cities; legal actions; digital ID and digital currencies to start. These will require ongoing research and production of signs and materials for public education. The digital ID and currency issues are two of the most critical and going to involve significant amounts of education for people.

Please give generously by etransfer to: clear2012@pm.me or our endeavours

to educate the public we will not be able to educate people as effective as we are doing now. You can also mail cash (this remains safe) by Expresspost to: P.O. Box 21113 Cherry Lane Mall, Penticton, BC, V2A 8K8. Cash of course, would be the preferred method to protect everyone's privacy.

These are unfortunately the only methods available right now to accept donations outside of the monthly rallies. Everything we do is on a volunteer basis and if you are not able to volunteer, your cash donation is what keeps the freedom wheel turning.

We do need volunteers to join our **Fundraising Focus Group**. If you are good at event planning and have some time to devote to organize regular fundraising occasions, please come see Linda at the CLEAR booth this Saturday or contact CLEAR.Linda@proton.me.

We need volunteers who are:

Proactive
Can work independently
Able to collaborate with others
Responsible and Dependable
Trustworthy
Enthusiastic
Result-Oriented
Committed
Motivated

If you possess these qualities and want to make a difference right now as a Freedom Activist, please add your name to the Volunteer List at the CLEAR booth this Saturday or contact CLEAR.Linda@proton.me to get more information.

Freedom requires time, energy or money. Thank you all for your help, in any form you are able to assist with. Everything you do for the sake of freedom is a seed planted. And although you may not see where it lands, trust that it will grow and bear fruit! Otherwise, why have the City, Province and Feds

continually tried to shut us down?!! We are effective with one of the lowest vaccination rates in BC and Canada – **thanks to YOU!**

Sunday Paper Deliveries

**Next delivery
day:
April 9, 2023**

(Weather Permitting)

Add your name to the delivery list and make sure to check your email on Sunday mornings for confirmation that our paper delivery will take place that day

Make sure you arrive before the designated time so we can all get going ASAP!

Every Sunday at 11:30 am

- Sign-up on the Newspaper Delivery list so that you get an email confirming the deliveries for each Sunday. With winter in mind, we will only do this if roads are bare and it's not snowing. The advantage of

delivering this time of year is that nobody is hanging out in their front yards except for the odd snowman.

- We meet at the Capri parking lot between A&W and De Dutch Pannekoek House
 - Bring a large bag for carrying the papers if you want
 - Grab a free small Kelowna mapbook that can help you get situated. Your cell phone will be tracking and tracing you. Learn how to read maps again
 - You will be provided with a printed google map of the area you will be delivering to. Bring a yellow marker to indicate which streets you completed. You may run out of papers or you may end up with extra
 - We ask that with every paper you deliver, you remove the inserts and place them in the mailbox in front or behind the paper. That way, someone who may hastily throw out the paper will still be forced to see each individual flyer
 - Please deliver only one paper per mailbox, regardless if you have different papers (we usually have a combination of different papers and editions). Some houses may have up to 4 mailboxes; put one paper in each as they are for different tenants

- Sign up as a Volunteer to participate in one of the many focus groups we are working to organize. Most people are too busy to commit to fighting for freedom. I guarantee you will have plenty of extra time after Canada becomes a full-fledged communist country and your jobs & businesses are gone. Time to add freedom-fighting to your list of priorities. Much of the help needed can be done at home and even one hour per week will be helpful. Even if you don't want to join a specific group, maybe you have something you can offer to help out. Let us know!

- Contact Linda at CLEAR.Linda@proton.me

3 Simple Things Freedom Activists can do to WIN this War:

Knowledge is power!

2. Replace your cell phone with a flip phone:

Companies will not use digital currency if we are not using digital currency! It will cost them too much in lost business.

Here is an awesome poster you can distribute to all businesses to put on their entrance doors, advocating for the use of cash. Print on 8 1/2 x 11 glossy hard stock for best results.

The dangers of digital gov't ID and currencies are here... you need to use cash as much as possible. As recognized by Freedom Rising, there are many inherent dangers of using digital currency. What do you do, not if, but when:

The internet is down

There is a power outage

The card reader malfunctions

Your phone battery dies or doesn't work for other reasons

WE SUGGEST YOU CONSIDER THE FOLLOWING AS WELL:

Your phone is stolen

Your passwords are co-opted

Your credit/debit card strip is damaged – needs replacing

There are errors in relation to the quantum of \$\$ on your card

Gov't limits your purchases/CRA liens the balance on your card

AND MANY OTHER DANGERS

CLEAR has promoted the non-use of digital currencies and credit/debit cards as much as possible, for years.

Suggestion:

Withdraw money on Saturday/Sunday from the bank or bank machine, and then leave your money at home if you are scared to carry it with you, and just carry the amounts of cash for each day's purchases for the week.

New signs???

Even though COVID-19 restrictions are, for the most part, no longer in effect, other freedom issues have arisen as gov'ts use the cover of COVID-19 to introduce other more formidable liberty restrictions, including privacy violations.

Freedom is a multi-generational struggle – our legacy is to leave a better place for our children, not simply to quit after an issue appears to be over and anger diminishes; and of course, it rarely is truly over.

We urge you to provide designs (clear2012@pm.me) and/or your own signs for upcoming threats, including Digital ID

Digital currency and no cash

An amazing video showing VPD Constable Frederike Buchman, Badge # 3081 and the entire VDP refusing to charge trannies with assault. Watch at 9:09 for an incredible scene showing trannies violently assaulting Billboard Chris during his peaceful demonstration in Vancouver recently.

For those who have seen the video of the alleged assault by David against Interior Health officials, consider the violence shown here in this video and compare that to David's video clearly showing that the security officials pushed into him and committed an assault, which admittedly was of a much milder event than this.

Politics has infected all police forces.

Thank you Dan once again for incredible investigative videos.
