Freedom activists are critical thinkers!

Our society is so dumbed down and indoctrinated that anyone who is a critical thinker is labeled as a Conspiracy Theorist to avoid critical debates

Did you know: The term 'conspiracy theorist' was first coined and used by the CIA to ridicule anyone who opposed the gov't narrative?

Resistance Is Not Futile!

Next Supreme Court Appeal Hearing Date:

February 11, 2025 9:00 a.m.

On Nov. 29, I appeared also before Justice Wilson, for a case management hearing to determine how my appeal itself, will proceed.

It was determined that I will file a Constitutional Challenge to the transcripts fees statutes and regulations by the end of the

year, including the basis for same, and relief I will be seeking. I will post this on our website when it is complete, along with the response from Jessica Patrick for the Attorney General in Victoria, who will be dealing with this matter.

This is merely a case conference hearing to determine how the remainder of the appeal will proceed. There may be another one or two in the future as well.

The Crown recently filed its response to my Challenge on the Transcripts Extortion Fees they are charging for appeals.

They continue to want another \$9-10K for the Transcripts in my appeal!

I am trying to do these myself and have them accepted by the Court to avoid fundraising, however, this has proven to be extremely time consuming. I have about another three days to transcribe, and then have to ask the Court to accept them.

A hearing date will likely be set on this Challenge on Feb. 11 and I will keep you updated.

Monday, April 14, 2025 10:00 a.m.

To continue hearing my application to have the probation order stayed pending appeal
Justice Wilson will be hearing my appeal.

Anyone who was in court or seen the videos played into evidence, knows full well I am innocent.

That Crown Persecutor Grabavac would devote so much time and effort into this relatively minor issue, shows the politics underscoring this case.

Grabavac, as expected, did not finish his presentation of lies and deception to the Court at our last hearing.

City of Kelowna v David Lindsay et al
Petition to Stop Rallies at Stuart Park

Week of March 10, 2025 10:00 a.m.

1355 Water St.

Kelowna Courthouse

For final hearing on our (me, CLEAR and Lloyd Manchester) SLAPP (Strategic Lawsuit Against Public Participation) application to strike the

City's Petition against us. (See the B.C. *Protection of Public Participation Act*).

<https://www.bclaws.gov.bc.ca/civix/document/id/complete/statreg/19003>

I was just informed on in early December, that our scheduled hearing to complete the SLAPP application in our civil case with the City of Kelowna, set for the week of Dec. 3, was cancelled due to being double booked with a criminal trial, which gets precedence over civil matters.

It is now set for the week of March 10, 2025.

Our documents in this case are located on our website at:

<https://clearbc.org/david/>

City of Kelowna documents and pleadings are now placed on our website for public viewing: <https://clearbc.org/city-of-kelowna/>

Recently, Katie obtained an injunction in the Federal Court against the cull of these wonderful animals. A judicial review of the Canadian Inspection Agency's decision to cull these animals will now take place at some future date.

Meanwhile, the Inspection agency has applied to have this hearing expedited.

This hearing is set for Wed and Thu this week in the Federal Court of Canada. Decision might be released after hearing, but will likely be reserved and released shortly afterwards, maybe in a week or so.

Pat King

A decision on the sentence to be imposed on Pat King was originally set for Feb. 7. It has been adjourned and will be delivered by the Judge at the Ottawa Courthouse on Wednesday, February 19.

Crown was seeking up to 10 years, and King was asking for time served up to a maximum of two years.

The Judge has hinted that the Crown is not going to get anywhere near that type of sentence and he was considering Pat King's submissions.

Maxime Bernier, leader of the [People's Party of Canada](#) (PPC), joins Tanya Gaw on the Empower Hour to unpack some of the Breaking News headlines that are rocking the world. These are crazy and exciting times that we are living in. Canadians are waking up and are gobsmacked at the level of corruption that is being exposed. We've got some potential obstacles ahead of us as we approach the next election but the current tsunami of changes in the US may be a very good indication that we are nearing a turning point in Canada as well.

Maxime Bernier is becoming known as the populist leader whose voice has been rising and gaining popularity since 2018 when he launched the PPC party. Maxime's no-nonsense platform is keeping the Conservative party on their toes and influencing the direction of the political conversation.

Simultaneously, **Action4Canada** has been working toward the same goal: to protect our freedom and democracy. **A4C** has been ahead of the crowd when it comes to speaking on issues that have, for far too long, been considered taboo. Canadians have been subject to a military-style, psychological warfare as part of a diabolical **Global strategy** to silence dissenting voices against the global unelected cabal who are seeking world domination.

But be encouraged as they will not succeed. The Bible says, *“For all that is secret will eventually be brought into the open, and everything that is concealed will be brought to light and made known to all.”* Luke 4:17

PCR

**The Most Important Part of EVERYTHING,
is the Beginning**

Back in the spring of 2020, when the COVID-19 scam really started to materialize, we started our protests here in Kelowna opposing all such draconian actions such as lockdowns, etc. imposed by the now infamous, Bonnie Henry, aka Bonnie the Commie.

It was right at this time, I began to question just how this allegedly new virus was being diagnosed, one that allegedly did not exist before. How did they test for something that did not previously exist?

I began some online research, and discovered what Governments around the world were relying upon, the Corman-

Drosten Report, which in turn was heavily reliant upon the PCR test (actually it is a manufacturing process, not a test, *pe se.*) Warning bells went off when I saw that this Report was finalized just a couple of months before the alleged COVID-19 outbreak. I knew this was no coincidence.

Many of you will now have heard of PCR, especially as a result of reference to it with respect to Katie and the Ostriches, and the Federal Government relying upon PCR to murder 400 ostriches, right here in our own backyard in B.C.

Subsequently, in the summer and fall of 2020, I discovered two external, peer reviewed papers on the flaws in this Report and the use of PCR.

The first Report I saw was done by Canadian David Crowe, in June of 2020. (*Flaws in the Coronavirus Pandemic Theory*)

<https://c19toknow.info/CoronavirusPanic.pdf>

The second Report, of which has Michael Yeadon, former Pfizer official as an author, was released in the fall of 2020. (*External peer review of the RTPCR test to detect SARS-CoV-2 reveals 10 major scientific flaws at the molecular and methodological level: consequences for false positive results.*)

[https://www.researchgate.net/publication/346483715 External peer review of the RTPCR test to detect SARS-CoV-2 reveals 10 major scientific flaws at the molecular and methodological level consequences for false positive results](https://www.researchgate.net/publication/346483715)

There is now a further Addendum that was released in 2021 - *Corman Drosten Review Report by an International Consortium of Scientists in Life Sciences (ICSLS)*

<https://www.scienceopen.com/document?vid=6d44d0f8-67a7-49e7-8f3c-63bbfb2c91d5>

All of these papers completely destroyed the use of PCR as a reliable method to test for COVID-19 or any other virus on the claim that it was infectious, which Bonnie the Commie and every other Gov't health department were relying upon to allegedly detect COVID-19.

Bonnie the Commie, called this the "*gold-standard*" of testing, when in reality, it is "*fools gold*."

Since the spring of 2020, I have relied upon these Reports to also challenge all of the statistics put forth by Bonnie the Commie and her Gov't flunkies, including then Health Minister Dix.

Many victims of the use of PCR, have gone to court arguing that Gov't actions and stats were wrong. But to date, no one has actually challenged the root of the problem – the use of PCR as an accurate test itself!

We need a comprehensive challenge to stop all Gov't virus testing using PCR, coupled with an immediate application for an injunction to prevent them from using and relying upon it while the case is ongoing in the courts. With or without an injunction, the interpretation of the results of PCR, is misleading from all Gov'ts.

We need a court order that this test cannot be relied upon for use in detecting allegedly, infectious viruses. Far too many people 'down the line' after this test, are having their lives, careers

and property (animals) destroyed as a result of the 97.5% false positive rate which in my opinion, is being done knowingly by our Gov'ts, who continually use a cycling rate of 35 or higher, when 25 should be the max. Notwithstanding, PCR is not intended to be a sole diagnostic testing procedure, as the inventor Kary Mullis repeatedly confirmed.

Recently, Ted Kuntz from Vaccine Choice Canada, linked us to a new work, just released on January 31, 2025, by Mike Stone. This is an incredible historical analysis of Kary Mullis, his work, and his attackers. It is a must read to understand the nature of PCR and why it does not and cannot work in the manner relied upon by our Gov'ts, as well as the ineffectiveness of the attacks against him.

<https://mikestone.substack.com/p/kary-mullis-martyr-or-menace>

One should couple this with the two Reports I mentioned above, for conclusive evidence that can be used in court, (including the author(s) or others as expert witnesses), that PCR use is flawed at source in the manner it is being used and interpretation of the results, resulting in highly, false positive rates of COVID-19 infections, to skew the results in favour of Gov't sponsored property, rights and freedoms deprivations.

If you combine the inaccuracies in the interpretation of the PCR test, as well as the false statistics by Gov'ts by changing legal definitions and using the Case Fatality Rate instead of the much more accurate, Infection Fatality Rate (which I analyzed at repeated rallies in 2020 and 2021), it will be clear that the entire COVID-19 situation was truly a scam of massive proportions.

It truly is time for someone to take the appropriate legal action, applying to the superior court of one's Province, to obtain a declaration that the PCR test is unreasonable as it is being used and interpreted, and the Gov't should be prevented from using it to justify its actions, both in terms of human viral transmission as well with animals. (assuming viruses exist – which remains a hot topic of lively debate to the present).

Once a declaration is obtained that the Gov't cannot use the PCR, that should end the problems. In the case of the ostriches, finding two birds had the alleged bird flu virus using PCR (which does not mean they were infectious) so all 400 must be murdered, is unreasonable and unjustified, especially with no evidence of any other infections among the animals, nor the people working with them on a daily basis! Nor any evidence or proof of transmission to people.

I urge you to read this awesome updated report, providing excellent information on Kary Mullis personally, and his own views on the use and interpretation of the PCR test.

CASH UPDATES

In a mixed set of updates here.

CBDC Updates:

<https://libertysentinel.org/exposing-trumps-true-character/>

Canadian reporter Alex Newman explains what gov'ts around the world are doing with CBDCs right now.

India: advertising about banning Bitcoin

Kuwait: Forced over 1 million citizens to hand over their bio-metric data (including fingerprints) and suspending services if they do not do so, including withdrawing or transferring money.

Date for this was Sept. 30.

35 000 bank customers suspended from using bank services

England: Bank England is preparing to force digital currencies if the banks do not do so.

93% of Central Banks in the world are working on a CBDC – this is truly frightening.

USA: House of Representatives voted to pass a bill, The Anti-Surveillance State Act, 216-192, prohibiting the Federal Reserve from issuing a CBDC. It is concerning however, many still voted against this.

Florida: Passed a law banning CBDCs!

Support Protection of Cash Now – in Parliament!

Bill C-400

SUMMARY

This enactment provides for the development and implementation of a framework to ensure that cash continues to be available throughout Canada.

It also amends the *Currency Act* and the *Bank of Canada Act* to remove the Governor in Council's power to call in coins and notes. Finally, it amends the *Bank of Canada Act* to prohibit the Bank of Canada from issuing a digital form of the dollar.

<https://www.parl.ca/documentviewer/en/44-1/bill/C-400/first-reading>

<https://preventgenocide2030.org/keep-cash-alive-support-bill-c-400/>

The Bank of Canada (B of C) has recently announced plans to suspend introduction of a Central Bank Digital Currency (CBDC) to the public.

<https://www.kitco.com/news/article/2024-09-20/bank-canada-suspends-plans-introduce-cbdc-public>

While this may sound victorious on its face, and there is much positive to say when such plans are shelved or put on hold, please remember the use of the word "suspend" as opposed to "cancel".

Has the B of C simply decided to wait on the outcomes and research from other countries and then simply tag along?

In this past summer, the B of C was recommending Canada provide its own CBDC for digital payments. This apparently has been suspended or now put on hold. We can only hope for some permanency to this decision.

We need a Constitutional amendment that 100% absolutely provides for the mandatory use and acceptance of cash for all transactions – in any amount. So, if you wish to pay \$1 000 000.00 for a house in \$100/bills, you should be allowed to so do. That is privacy.

Conversely, Google has announced that the Google Wallet can now function as digital ID, based on the selling point of course, of convenience to the exclusion of all privacy. Once privacy is lost, so is freedom.

"Imagine starting a vacation like this," Google Wallet executive Alan Stapelberg wrote in a [blog post](#) last week. "You arrive at the airport and breeze through security by tapping your phone to a reader, scanning your boarding pass and ID. While waiting to board, you grab a drink at an airport bar, tapping your phone to prove your age. When you arrive at your destination, you find your rental car and leave the lot without stopping for an in-person ID check because you already provided the necessary information in the rental car app. You

check into your hotel online and your key is issued straight to your digital wallet. You do all of this with your phone — no physical wallet required."

<https://www.thegoldreport.com/news/google-announces-digital-id-wallet>

Though a bit late, in June, 2024, Norway passed legislation requiring use of cash!

REMINDER

New Credit Card Fees & Lack of Privacy

It is starting – Use cash as much as possible – use credit cards or digital only if there is no other alternative.

The Bank of Canada is admittedly planning for digital currency.

It claims that it will not replace cash – BUT – and here is the caveat, it will continue to use cash “notes for as long as Canadians want them.”

In other words, if you don't use cash, you will lose it. Reading between the lines, it is clear that the Gov't will simply issue press releases and polls showing most Canadians don't use and/or don't want cash, and then the Bank of Canada will claim it has to eliminate cash because few people are using it or want it, and

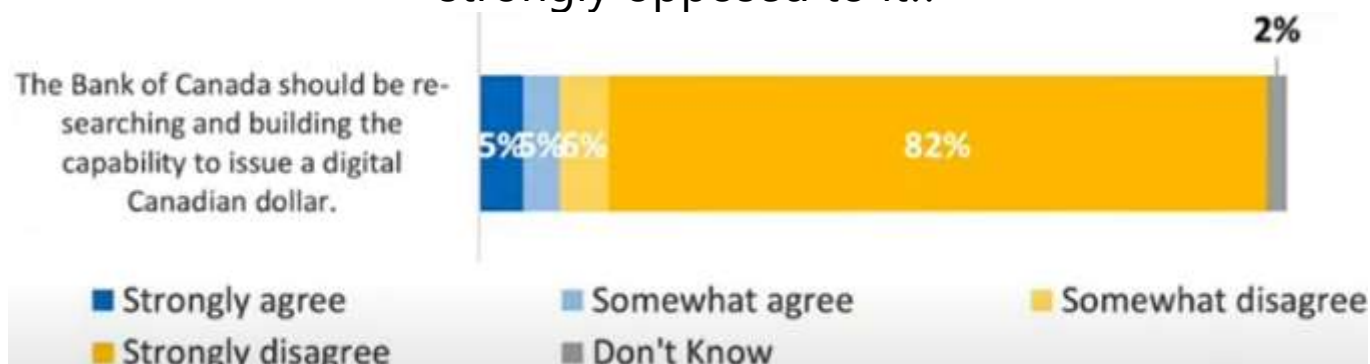

it is, ironically, too costly to maintain printing the notes and coins.

<https://www.bankofcanada.ca/digitaldollar/#what-digital-canadian>

Bill Still, the US Patriot and author of the incredible documentary, *The Money Masters*, outlines the results of recent polls showing that 86% of Canadians fear the digital dollar!!!

Wow.

87% of Canadians have heard or are aware of the Bank of Canada's CBDC (Central Bank Digital Currency), and 82% are strongly opposed to it!!

<https://www.thestillreport.com/post/bank-of-canada-survey-86-fear-digital-dollar-the-still-report-episode-4280>

Companies will not use digital currency if we are not using digital currency!

It will cost them too much in lost business.

The dangers of digital gov't ID and currencies are here... you need to use cash as much as possible. As recognized by Freedom Rising, there are many inherent dangers of using digital currency. What do you do, not if, but when:

The internet is down

There is a power outage

The card reader malfunctions

Your phone battery dies or doesn't work for other reasons

WE SUGGEST YOU CONSIDER THE FOLLOWING AS WELL:

Your phone is stolen

Your passwords are co-opted

Your credit/debit card strip is damaged – needs replacing

There are errors in relation to the quantum of \$\$ on your card

Gov't limits your purchases/CRA liens the balance on your card

AND MANY OTHER DANGERS

CLEAR has promoted the non-use of digital currencies and credit/debit cards as much as possible, for years.

Suggested Solution:

Withdraw money on Saturday/Sunday from the bank or bank machine, and then leave your money at home if you are scared to carry it with you, and just carry the amounts of cash for each day's purchases for the week.
