**Next Supreme Court Appeal Hearing Date:**

**April 9, 2025                      9:00 a.m.**

I have previously appeared before Justice Wilson, for a case management hearing to determine how my appeal itself, will proceed.

I have now filed a Constitutional Challenge to the transcripts fees statutes and regulations, including the basis for same, and relief I will be seeking. An amendment may have to be made to include a statute I was unaware of. I will post this on our website when it is complete, along with the response from Jessica Patrick for the Attorney General in Victoria, who will be dealing with this matter.

A date has been set for the week of August 11, 2025 to hear this matter.

Two affidavits have now been filed, by myself and my friend, court accepted, 25-year professional transcriber.

The Crown recently filed its response to my Challenge on the Transcripts Extortion Fees they are charging for appeals.

Apparently, there has been a new change in the contract for transcripts fees. Previously, the company with the contract had exclusive rights to make these transcripts. This provision has now been removed, and I can get anyone, as long as they are registered with the Gov't to produce them, to make my Transcripts.

This is a bit too late however, as I needed this in October, 2023, not now.

I am trying to do these myself and have them accepted by the Court to avoid fundraising, however, this has proven to be

extremely time consuming. I have about another three days to transcribe, and then have to ask the Court to accept them. The Crown has acknowledged that if the Court accepts my own Transcripts, that my Challenge will be moot and not required to be heard.

The implications of this are enormous, for everyone who has had to pay tens of thousands of dollars in transcripts fees (average \$1500-\$2000/day!!!), in addition to lawyer's fees.

Stay tuned on this one!

---

**Monday, April 14, 2025      10:00 a.m.**

To continue hearing my application to have the probation order stayed pending appeal.

Justice Wilson will be hearing my appeal.

Anyone who was in court or seen the videos played into evidence, knows full well I am innocent.

That Crown Persecutor Grabavac would devote so much time and effort (including a 40-page written argument!) into this relatively minor issue, shows the politics underscoring this case.

Grabavac, as expected, did not finish his presentation of lies and deception to the Court at our last hearing and will continue no April 14.

# ***City of Kelowna v David Lindsay et al*** **Petition to Stop Rallies at Stuart Park**

## **Court Adjourned – August 25, 2025**

### **IMPORTANT LEGAL UPDATE – FREEDOM OF EXPRESSION CASE**

Dear Supporters,

We want to provide you with a critical update regarding our legal battle for freedom of expression.

Our three-day hearing, originally scheduled for the week of March 10, 2025, has been adjourned once again, likely until this summer. This marks the second postponement, entirely due to scheduling conflicts in the Supreme Court, as a criminal trial has been given precedence over our civil proceedings—just as it was in December.

While we do not yet have a confirmed date for the hearing, we have been asked to indicate our availability for late July, August, or September 2025. We will keep you informed the moment a new date is set.

### **The City's Legal Attack on Freedom of Expression**

This case began when the City of Kelowna filed a Petition seeking an injunction to shut down our rallies and ban us from key downtown areas—the most effective locations for public demonstrations.

In response, we filed a comprehensive legal defense, including our Response, supporting affidavits, and a SLAPP Application to strike down the City's injunction. This move completely blindsided the City, which had not anticipated such a strong legal counteraction

Our documents in this case are located on our website at:

<https://clearbc.org/david/>

City of Kelowna documents and pleadings are now placed on our website for public viewing:

<https://clearbc.org/city-of-kelowna/>

## **What Is a SLAPP Application?**

<https://www.bclaws.gov.bc.ca/civix/document/id/complete/statreg/19003>

A SLAPP (Strategic Lawsuit Against Public Participation) Application is a legal mechanism designed to prevent powerful entities from silencing public expression through litigation. In this case, the City—armed with virtually unlimited taxpayer-funded resources—is attempting to suppress our fundamental right to peaceful, public protest.

This is precisely the type of government overreach that SLAPP legislation was enacted to prevent.

## **The City's Dangerous Argument**

The City of Kelowna's position represents one of the most dangerous attacks on free expression in Canada. Their argument is that without a

permit to use sound equipment, our protest is not truly a protest—it is merely a silent gathering, or event as they falsely term it.

This logic undermines the very foundation of free expression. Requiring a permit for protest implies that protesting is banned by default, unless explicitly approved by the government.

However, the Supreme Court of Canada (SCC) has repeatedly ruled that freedom of expression includes not just the right to speak—but the right to be heard.

To illustrate this, we played a video of David speaking at our Freedom Rally when our generator went out—immediately, people could no longer hear his words. This proves what we all know: effective public expression requires the ability to communicate clearly, which includes, indeed, requires the use of sound equipment.

Furthermore, both the SCC and lower courts have consistently upheld that public parks, streets, and sidewalks are Constitutionally protected places for peaceful protest. Even the RCMP has acknowledged that our demonstrations have been entirely peaceful.

## **City's Flawed & Misleading Claims**

The City argues that our demonstrations qualify as an "*event*," which under their bylaws requires a permit. However, the term "*event*" is not even defined in their bylaws.

Their position is based solely on:

- Our use of sound equipment
- The presence of our CLEAR canopy, which they have falsely labeled as a tent
- Allegations that CLEAR and David were selling merchandise

These weak and arbitrary claims do not—and cannot—turn a lawful protest into a licenced "*event*." Even if certain bylaw infractions were alleged, that does not justify stripping us of our Constitutional rights.

Additionally, the City has provided no evidence that David or CLEAR were selling anything. Only that other people were. And I have not been deputized by the City to enforce their bylaws, as former Bylaw Manager Kevin Mead admitted.

Not to prejudge, but the Justice in this case, I believe has already recognized that the City is going nowhere with their claim that our CLEAR Canopy is an alleged, "*tent*".

In effect, the only thing the City really has in evidence that we were allegedly holding an undefined "*event*", is that we used sound equipment and advertised our Freedom Rallies.

All protests involve advertising or they would never take place. This is an absurd, and indeed, stupid argument.

The use of sound equipment is what is legally known as "*necessarily incidental*" to our freedom of expression. Without the sound equipment, we could not effectively communicate, and at times with many people, not at all.

By doing this, the rallies become more of a social function, than a protest, because no one can effectively communicate to everyone else.

## **Our SLAPP Application: A Strong Legal Defense**

Our SLAPP Application is incredibly detailed and well-prepared. As the legal maxims state: "*Fraud lurks in generalities*", and, "*the details make all the difference.*"

The City's strategy is clear:

1. Ignore Constitutional law and attempt to redefine protesting as a regulated activity.
2. Gloss over key legal principles and hope the courts accept their broad, unfounded claims.

3. Bylaw us out of existence—forcing us away from public spaces and out of the public eye.

But we refuse to be silenced.

We knew we had to be meticulously prepared, with extensive evidence and legal arguments to counter every false claim. And we are prepared.

## **The Broader War on Free Speech**

This case is not an isolated attack—it is part of a coordinated effort to suppress free expression across Canada, particularly in British Columbia and Alberta.

- Online censorship is expanding.
- Private interest groups, funded by the government, are targeting businesses that support free speech, threatening them with boycotts and false accusations. Many businesses break contracts with us at the last minute out of fear.
- Municipal governments are being weaponized to push freedom advocates out of public spaces.
- And most recently under the Communist Liberal Government, ongoing refusals to permit certain media outlets into their press releases and government functions, to ensure only Liberal Government supported media is allowed in.

Their tactic is simple: Out of sight, out of mind. If they can erase us and our messages from public view, they believe they can stifle dissent.

## **Why This Fight Matters**

Our Kelowna public rallies have empowered thousands to get involved in defending freedom. The truth we have exposed has reached all corners of British Columbia, shedding light on the deceptions of government officials.

Just in the past six weeks:

- Three complete strangers have approached me, expressing their gratitude for what we have done.
- One person emphatically stated, *"There are thousands of people supporting you."*
- A public health employee confided that many of their colleagues supported us but were too afraid to speak out.

These silent supporters will only be able to stand with us if we remain in the public eye.

Requiring a government license to protest is unacceptable. If we comply, we further surrender our right to spontaneous demonstrations, which are at the heart of effective activism.

## **How You Can Help**

This is one of the most important free expression cases in Canada. Only three provinces have SLAPP legislation similar to what we have in British Columbia.

We need your continued support—legal battles like this require time, effort, and resources.

If you believe in freedom of expression, there are three ways you can help: time, energy or financial. Please choose at least one to contribute to our case and our Freedom Rallies.

## **Next Steps: Stay Engaged**

As soon as the courts provide us with new hearing dates, we will notify you immediately. Please show up at court and voice your support of our position

In the meantime, spread the word, stay informed, and stand with us. The fight for freedom of expression is far from over—but together, we will prevail.

The BC Government will use this case, via its municipalities, to eventually shut down all public protests, if we lose. Make no mistake, despite the

City's colourable guise of claiming it is only bylaw enforcement and they don't care what we talk about, this is an outright lie. The only person charged with having public rallies is David – despite dozens of other protests using sound equipment over the years on other topics that either supported the governments or were non-threatening to them.

CLEARLY, our rallies have had far more success behind the scenes, than we can see. Our signs, some of the best, including **LOCK HER UP – Bonnie Henry**, remain some of the strongest signs voicing not only our opposition to what these Government people have done, but demanding accountability.

Thank you for your unwavering support.

CBDC Updates:

**<https://libertysentinel.org/exposing-trumps-true-character/>**

Canadian reporter Alex Newman explains what gov'ts around the world are doing with CBDCs right now.

**India:** advertising about banning Bitcoin

**Kuwait:** Forced over 1 million citizens to hand over their bio-metric data (including fingerprints) and suspending services if they do not do so, including withdrawing or transferring money.

Date for this was Sept. 30.

**35 000 bank customers suspended from using bank services**

**England:** Bank England is preparing to force digital currencies if the banks do not do so.

93% of Central Banks in the world are working on a CBDC – this is truly frightening.

**USA:** House of Representatives voted to pass a bill, The Anti-Surveillance State Act, 216-192, prohibiting the Federal Reserve from issuing a CBDC. It is concerning however, many still voted against this.

**Florida:** Passed a law banning CBDCs!

## **SUMMARY**

This enactment provides for the development and implementation of a framework to ensure that cash continues to be available throughout Canada.

It also amends the *Currency Act* and the *Bank of Canada Act* to remove the Governor in Council's power to call in coins and notes. Finally, it amends the *Bank of Canada Act* to prohibit the Bank of Canada from issuing a digital form of the dollar.

The Bank of Canada (B of C) has recently announced plans to suspend introduction of a Central Bank Digital Currency (CBDC) to the public.

<https://www.kitco.com/news/article/2024-09-20/bank-canada-suspends-plans-introduce-cbdc-public>

While this may sound victorious on its face, and there is much positive to say when such plans are shelved or put on hold, please remember the use of the word "*suspend*" as opposed to "*cancel*".

Has the B of C simply decided to wait on the outcomes and research from other countries and then simply tag along?

In this past summer, the B of C was recommending Canada provide its own CBDC for digital payments. This apparently has been suspended or now put on hold. We can only hope for some permanency to this decision.

We need a Constitutional amendment that 100% absolutely provides for the mandatory use and acceptance of cash for all transactions – in any amount. So, if you wish to pay \$1 000 000.00 for a house in \$100/bills, you should be allowed to so do. That is privacy.

Conversely, Google has announced that the Google Wallet can now function as digital ID, based on the selling point of course, of convenience to the exclusion of all privacy. Once privacy is lost, so is freedom.

*"Imagine starting a vacation like this," Google Wallet executive Alan Stapelberg wrote in a [blog post](#) last week. "You arrive at the airport and breeze through security by tapping your phone to a reader, scanning your boarding pass and ID. While waiting to board, you grab a drink at an airport bar, tapping your phone to prove your age. When you arrive at your destination, you find your rental car and leave the lot without stopping for an in-person ID check because you already provided the necessary information in the rental car app. You check into your hotel online and your key is issued straight to your digital wallet. You do all of this with your phone — no physical wallet required."*

## ***New Credit Card Fees & Lack of Privacy***

It is starting – Use cash as much as possible – use credit cards or digital only if there is no other alternative.

The Bank of Canada is admittedly planning for digital currency.

It claims that it will not replace cash – BUT – and here is the caveat, it will continue to use cash “notes for as long as Canadians want them.”

In other words, if you don't use cash, you will lose it. Reading between the lines, it is clear that the Gov't will simply issue press releases and polls showing most Canadians don't use and/or don't want cash, and then the Bank of Canada will claim it has to eliminate cash because few people are using it or want it, and it is, ironically, too costly to maintain printing the notes and coins.

<https://www.bankofcanada.ca/digitaldollar/#what-digital-canadian>

Bill Still, the US Patriot and author of the incredible documentary, The Money Masters, outlines the results of recent polls showing that 86% of Canadians fear the digital dollar!!!

Wow.

87% of Canadians have heard or are aware of the Bank of Canada's CBDC (Central Bank Digital Currency), and 82% are strongly opposed to it!!

<https://www.thestillreport.com/post/bank-of-canada-survey-86-fear-digital-dollar-the-still-report-episode-4280>

Companies will not use digital currency if we are not using digital currency!

It will cost them too much in lost business.

The dangers of digital gov't ID and currencies are here... you need to use cash as much as possible. As recognized by Freedom Rising, there are many inherent dangers of using digital currency. What do you do, not if, but when:

The internet is down

There is a power outage

The card reader malfunctions

Your phone battery dies or doesn't work for other reasons

### **WE SUGGEST YOU CONSIDER THE FOLLOWING AS WELL:**

Your phone is stolen

Your passwords are co-opted

Your credit/debit card strip is damaged – needs replacing

There are errors in relation to the quantum of \$\$ on your card

Gov't limits your purchases/CRA liens the balance on your card

### **AND MANY OTHER DANGERS**

CLEAR has promoted the non-use of digital currencies and credit/debit cards as much as possible, for years.

### **Suggested Solution:**

Withdraw money on Saturday/Sunday from the bank or bank machine, and then leave your money at home if you are scared to carry it with you, and just carry the amounts of cash for each day's purchases for the week.

**"Ban MAGA hats": Victoria councillor wants Trump fans labelled extremist group**

Now a local Victoria councillor wants speech banned that he does not agree with. What happened to: *"I do not agree with what you say, but I will defend to the death your right to say it?"* Too many Commies are getting into positions of power.
