

# COVID-19

## -THE GREAT MASK DEBATE-

Science proves masks  
**DO NOT** stop viruses!

**FACTS & SITES (out of 50+):**  
**Bonnie Henry under oath:**

"There's very scant evidence about the value of masks in preventing the transmission of influenza; not a huge fan of the masking piece."

<https://bit.ly/3vGBIQR>

<https://rb.gy/g5np3>

Ont. Civil Liberties Association

"...recommends civil disobedience against mandatory masking."

<http://bit.ly/3Qhepqq>

"There is no known benefit arising from wearing a mask": A review of

science relevant to COVID-19

Prof. Denis Rancourt. Dr. Mercola:

"Masks do not inhibit viral spread."

<http://bit.ly/3QIyjAt> <http://bit.ly/3jTSRUK>

Dr. Sherri Tenpenny: "Conclusion regarding masks, they do not work."

Scientific studies on mask use

<http://bit.ly/3CPC3oz>

W.H.O. cites 10 studies confirming that masks do not stop viruses.

<http://bit.ly/3ZgMUBu>

## DANGERS OF WEARING A MASK

- They don't stop viruses (<3.0 microns)
- They increase CO2 levels
- They reduce oxygen levels up to 15%
- They cause anxiety, headaches, stress, fear
- They impede or prevent communication
- They encourage anonymity
- They are dangerous when exercising
- They give a false sense of security
- There are no minimum standards of efficacy
- They result in breathing in mask fibres & toxic sprays used in production

### RESULTS OF WEARING A MASK

<https://rb.gy/x5jgf>

- They make reading facial expressions difficult, especially for children
- They make people less empathetic
- They increase facial touching, spreading germs & viruses, defeating their alleged purpose
- They insert large waste into the environment
- They increase bacterial pneumonia
- They amount to submissive behaviour
- They are abusive to small children
- 65+ studies confirm dangers

## LEGALLY:

*Emergency Program Act*

Def. Emergency: Viruses are not a "force of nature". Min. Farnworth illegally issued a ~~hazardous~~ emergency order. This Act was changed in 2023 to include viruses!

It is a well-known principle of law, that all laws must be reasonable. If the reason for the law ceases, so does the law. Where masks do not and under the laws of physics, cannot prevent viral transmission, then the law (or order) itself must fail and cease to be. *Cessante ratione legis, cessante ipsa lex*

Almost all COVID-19 cases & infections, are from people who are vaxxed and/or who wore masks.

**Peer-Reviewed studies confirm that Vaccine and Mask Mandates Did Not Stop COVID-19 Spread in Schools and Universities**

*"It was known long before COVID-19 that face masks don't do anything."*

Michael Yeadon, former Pfizer VP, toxicologist and allergy respiratory expert

*IF COVID was so deadly why were no bio-hazard mask disposal bins required?*

## Ideas & Resources:

Cash is not dangerous. Cards leave records that ruin privacy, which eliminates freedom

Hugging is not dangerous. We need hugs to survive and thrive

Mask dangers: Increase CO2, less oxygen; Increased bacterial growth, inhaling of harmful fibers

Chris Schaefer, Cdn Respirator Specialist

**Quarantine - Restricts movement of sick people**

**Tyranny - Restricts movement of healthy people**

The cure should not be worse than the disease

# COVID-19

## \*PCR Test\*

Infectious **The Weakest Link** Not infectious

**Kary Mullis - Inventor of PCR Test-Nobel Prize Winner for Chemistry 1944-2019**

**Gov'ts use PCR to test for COVID and the Bird Flu. But is this really accurate? No.**

*"The PCR Test is a DNA test that does not detect viruses or illnesses. It doesn't tell you that you are sick and doesn't tell you that the thing you ended up with really was going to hurt you."*

*Anyone can test positive for practically anything with a PCR test, if you run it long enough...with PCR if you do it well, you can find almost anything in anybody."*

PCR is an invention, not a test. It is a DNA amplification process, using cycles for DNA to exponentially replicate. Each Gov't sets its own own arbitrary number of cycles. They can, and do manipulate results to the public, The more cycles performed the more false COVID-19 positives.<sup>1</sup>

Proof PCR results are a fraud. [clearbc.org/pcr-tests/](https://clearbc.org/pcr-tests/)

30 cycles is the max to be used.<sup>2</sup> Dr. Mina, Epidemiologist, Harvard - Stephen A. Bustin, Prof. Molecular Biology & world expert on PCR test <https://rb.gy/8lvd>

BC admits to using 35-40 cycles <https://rb.gy/djqik>

**25 CT, error rate = 30%**  
**30 CT, error rate = 80%**  
**35 CT, error rate = 97%** <https://rb.gy/r6hia>

1. Flaws in the Coronavirus Pandemic Theory – The Infectious Myth, David Crowe <https://clearbc.org/covid-19/articles/#5>

2. <https://nytimes.com/2020/08/29/health/coronavirus-testing.html>  
 Dr. Mina Epidemiologist Harvard

The test results are NOT positive/negative. "...but simply the number of cycles required to detect sufficient material to beat the arbitrary cutoff between positive and negative. If positive means infected and negative means uninfected, then there are cases of people going from infected to uninfected in a couple of days."<sup>3</sup>

**Elon Musk** tested + and - twice in the same day! Even a papaya tested positive!

*"PCR tests cannot distinguish between inactive and live or reproductive ones. What that means is PCR tests cannot detect infections. Period."*<sup>4</sup>

A BC molecular biologist confirmed that at 35 cycles: "...we're finding meaningless fragments that say nothing about the infectivity of the patient ...possibly as many as 90% of those testing positive for COVID-19 are probably not infectious."<sup>5</sup>

COVID-19 is an RNA virus. This must be converted to DNA by PCR. This is "...widely recognized as inefficient and variable" by up to a factor of 10. Because each "cycle" doubles, even a small variation is magnified and causes further unreliability.<sup>6</sup>

"PCR at 35 cycles is useless, just "dead nucleotides." Anthony Fauci, who still fraudulently promotes it.

Manitoba Gov't court expert agrees >56% of positive "cases" are not infectious; people can test positive 100 days after symptoms are gone!<sup>7</sup>

Dec. 2020 - The Portuguese Court of Appeal ruled the PCR test cannot be relied upon in court to quarantine anyone or prove that a person is infectious.

6. <https://off-guardian.org/2020/06/27/covid19-pcr-test-are-scientifically-meaningless/>
7. *Gateway Church v HMTQ* 20210521 Dr. Jared Bullard

## 9 Scientific reasons why PCR is useless:

<https://rb.gy/s2dj5>

1. Excessive primers used in test
2. The test is highly variable, non specific
3. Can't tell difference between dead & live viruses
4. The annealing temp. is variable
5. Arbitrary Count values exist in different labs
6. No validation at molecular level
7. No positive control for specificity; no negative control to exclude other coronaviruses
8. The test is not standardized in any way
9. Scientists recommending tests, were not peer reviewed & in conflict of interest.<sup>8</sup>

To confirm a person is infectious, a culture test must be done to see if other cells will be infected. This is never done!

<https://shorturl.at/Mkr7A>

*"PCR test cannot tell you if you have a virus or a dead chunk of it. No other virus ever on this planet has been accompanied by so much testing and has created so much nonsense and panic."*<sup>9</sup> **Dr. Stadler, Prof. Emeritus & Former Director of Institute for Immunology Bern University**

<https://rb.gy/h2qoi>

The W.H.O. have warned doctors, scientists, experts & countries almost from the beginning, to not rely on the PCR test, as it is unreliable on its own!<sup>10</sup>
