Freedom activists are critical thinkers!

Our society is so dumbed down and indoctrinated that anyone who is a critical thinker is labeled as a Conspiracy Theorist to avoid critical debates

Did you know: The term 'conspiracy theorist' was first coined and used by the CIA to ridicule anyone who opposed the gov't narrative?

Resistance Is Not Futile!

Courts - UPDATE

Falsified assault charge

Kelowna Courthouse

***R v David Lindsay s. 266 Criminal Code
Assault - Appeal***

Thank you for all your support and belief for freedom!!

Remember the **Freedom Principle**:

An attack against one is an attack against all.
An attack against all, is an attack against one.

Resistance Is Not Futile!

Update:

Probation Order suspended till appeal is heard – David can now host the Freedom Rallies and publicly discuss this trial!

At sentencing last year on the falsified assault charges against me, J. Heinrichs imposed a completely unreasonable two-year probation order, prohibiting me from publicly talking about the security guards involved in the incident, including Greg Smith, the Interior Health security officer who lied directly to the police that I was causing a disturbance in support of his one-month ban against me from entering the IH building on Doyle St. in Kelowna. All of which we have on video, thanks to Leo's diligence and dedication.

Despite initially filing a 40-page argument opposing having the probation order stayed or suspended until my appeal is heard, the Crown, for some unknown reason is now consenting to this.

In an email, Mr. Grabavac claims that because the probation was two years, and my appeal won't be heard until sometime next year, my probation would be almost over, so he is consenting to a stay.

I do not know the reasons for this change. Am I being set up? Meanwhile I was informed in court today, that another criminal case was set for last week that would have adjourned my original Sept. 5 hearing. Why??? My case was set last spring. Further, if this is so, why wasn't I included on any communications between scheduling and the Crown, as is usually the case? All of this raises ongoing concerns. I am still keeping my back to the wall.

Essentially this means that this original draconian probation order, is not in effect, unless I lose the sentence appeal next year. If that happens

however, it will be back in force for a further 15 months. Is this an attempt by the Crown to simply drag this case out forever?

Despite this, the removal of the probation order now allows me to talk openly about what happened in court and involving the security officers, including IH Security Manager Greg Smith. I will do so in upcoming emails and on line.

And this further allows me to continue our protest rallies again starting October 4.

The original probation order had a requirement to 'keep the peace and be of good behaviour'. I foresaw these corrupt gov't officials with the City falsifying more bylaw tickets, and then claiming I was not of good behaviour, and then charging me with breaching a probation order – another criminal offence. And dragging this out for years more. It was a big set up from the beginning.

But a big thank you to Lloyd – we were able to continue our public efforts for freedom in Kelowna. Without his amazing help over the past nine months, the people of Kelowna would have likely subscribed to the 'out of sight, out of mind' principle.

Please take the opportunity and express your gratitude to Lloyd when you see him for his awesome dedication and contributions over the past few years to freedom.

I will look forward to seeing our Freedom Family this coming October 4 at Stuart Park!!!

Meanwhile, please join us as well to our weekly Hwy Protests each Sat. at 12:00 noon, at Hwy 97 & Cooper, by Save-on Foods.

Thank you to everyone who has continued to support freedom at Stuart Park for the past five years!!!

Next Supreme Court Appeal Hearing Date from the falsified assault convictions against David:

Date: Week of Sept. 29, 2025 2:00 p.m.

Kelowna Courthouse

Issue:

Hearing on Constitutional Challenge to have Transcripts accepted that I have produced – and to rule that charging fees for Transcripts required for Trial applications and appeals is a violation of s. 7, 8 and 11 of the Charter.

“The wheels of justice turn slowly, but they do turn”

I have now filed a Constitutional Challenge to the transcripts fees statutes and regulations, including the basis for same, and relief I will be seeking. An amendment is being made to this Challenge.

The implications of this are enormous, for everyone who has had to pay tens of thousands of dollars in extortionist transcripts fees (average \$1500-\$2000/day!!!), in addition to lawyer's fees.

Stay tuned on this one!

City of Kelowna v David Lindsay et al **Petition to Stop Rallies at Stuart Park**

IMPORTANT LEGAL UPDATE FREEDOM OF EXPRESSION CASE FALSIFIED ASSAULT CONVICTION APPEAL

Dear Freedom Supporters:

We want to provide you with a critical update regarding our legal battle for freedom of expression.

Continuation of the hearing for our SLAPP application finished this past Friday, after four days of hearing before Justice Hardwick all week.

Kelowna filed a Petition to obtain an injunction to ban our rallies throughout the entire downtown Kelowna area, the most effective areas in the City.

In turn, we filed what is known as a SLAPP application (Strategic Lawsuit against Public Participation), pursuant to the *Protection of Public Participation Act*. The acronym says it all – the Petition is an action designed to prohibit our public participation at Stuart Park exposing gov't corruption and lies.

<https://www.bclaws.gov.bc.ca/civix/document/id/complete/statreg/19003>

Justice Hardwick has reserved judgment in this case. There is no set date for the release of her judgment.

We urge everyone to pray for success in this case. This type of case has never been heard in Canada and we need God on our side to ensure a precedent in our favour. Please pray that J. Hardwick will come down on the side of freedom.

Our Court documents in this case are located on our website at:

<https://clearbc.org/david/>

City of Kelowna documents and pleadings are now placed on our website for public viewing:

<https://clearbc.org/city-of-kelowna/>

Our SLAPP Application: A Strong Legal Defense

Our SLAPP Application is incredibly detailed and well-prepared. As the legal maxims state: "*Fraud lurks in generalities*", and, "*the details make all the difference.*"

The City's strategy is clear:

1. Ignore Constitutional law and attempt to redefine protesting as a regulated activity.
2. Gloss over key legal principles and hope the courts accept their broad, unfounded claims.

3. Bylaw us out of existence—forcing us away from public spaces and out of the public eye.

But we refuse to be silenced.

We knew we had to be meticulously prepared, with extensive evidence and legal arguments to counter every false claim. And we are prepared.

The Broader War on Free Speech

This case is not an isolated attack—it is part of a coordinated effort to suppress free expression across Canada, particularly in British Columbia and Alberta.

- Online censorship is expanding.
- Private interest groups, funded by the government, are targeting businesses that support free speech, threatening them with boycotts and false accusations. Many businesses break contracts with us at the last minute out of fear.
- Municipal governments are being weaponized to push freedom advocates out of public spaces.
- And most recently under the Communist Liberal Government, ongoing refusals to permit certain media outlets into their press releases and government functions, to ensure only Liberal Government supported media is allowed in.

Their tactic is simple: Out of sight, out of mind. If they can erase us and our messages from public view, they believe they can stifle dissent.

Thank you for your unwavering support.

CBDC Updates:

<https://libertysentinel.org/exposing-trumps-true-character/>

Canadian reporter Alex Newman explains what gov'ts around the world are doing with CBDCs right now.

India: advertising about banning Bitcoin

Kuwait: Forced over 1 million citizens to hand over their bio-metric data (including fingerprints) and suspending services if they do not do so, including withdrawing or transferring money.

Date for this was Sept. 30.

35 000 bank customers suspended from using bank services

England: Bank England is preparing to force digital currencies if the banks do not do so.

93% of Central Banks in the world are working on a CBDC – this is truly frightening.

USA: House of Representatives voted to pass a bill, The Anti-Surveillance State Act, 216-192, prohibiting the Federal Reserve from issuing a CBDC. It is concerning however, many still voted against this.

Florida: Passed a law banning CBDCs!

Bruce Cain -- "Of all the various globalist agendas -- mass immigration, forced vaccination, Smart Meters, 5G, etc. -- there is no greater threat to humanity than a global digital currency. I would go so far as saying it heralds in the end of human civilization and the beginning of a dystopian global slave plantation -- completely controlled by a very small number of global oligarchs. It must be stopped."

It is important to understand that a Digital ID is a prerequisite to a Digital Currency (CBDC) as you first need to uniquely identify each human slave in a manner that can't be counterfeited. So while a Digital ID may include your Social Security Number it will go much further. Your Digital ID will also include things like your fingerprints, your DNA, an Iris Scan, a Facial Scan. It will be designed so there is absolutely no way to hack the system and no possibility of duplication."

Yet another Bank of Canada report confirms that Canadians do not want a digital currency.

Bank of Canada says digital currency doable but unpopular

This is a MUST watch as Chinese refuse to use the new digital currency!

China could even 'delete' your money or render it 'expired' if not used fast enough. People are opposing it.

Bill C-400

NOTE: First reading June 13, 2025.

SUMMARY

This enactment provides for the development and implementation of a framework to ensure that cash continues to be available throughout Canada.

It also amends the *Currency Act* and the *Bank of Canada Act* to remove the Governor in Council's power to call in coins and notes. Finally, it amends the *Bank of Canada Act* to prohibit the Bank of Canada from issuing a digital form of the dollar.

France now calls for elimination of cash

Digital transactions are easier to trace, including cryptocurrencies

As usual – the same lies are relied upon: help combat drug trafficking (which gov'ts are an integral part of), and collection of taxes.

<https://www.rt.com/news/618025-france-minister-ban-cash/>

The Bank of Canada (B of C) has previously announced plans to suspend introduction of a Central Bank Digital Currency (CBDC) to the public.

<https://www.kitco.com/news/article/2024-09-20/bank-canada-suspends-plans-introduce-cbdc-public>

While this may sound victorious on its face, and there is much positive to say when such plans are shelved or put on hold, please remember the use of the word “suspend” as opposed to “cancel”.

Has the B of C simply decided to wait on the outcomes and research from other countries and then simply tag along?

In this past summer, the B of C was recommending Canada provide its own CBDC for digital payments. This apparently has been suspended or now put on hold. We can only hope for some permanency to this decision.

We need a Constitutional amendment that 100% absolutely provides for the mandatory use and acceptance of cash for all transactions – in any amount. So, if you wish to pay \$1 000 000.00 for a house in \$100/bills, you should be allowed to so do. That is privacy.

Conversely, Google has announced that the Google Wallet can now function as digital ID, based on the selling point of course, of convenience to the exclusion of all privacy. Once privacy is lost, so is freedom.

“Imagine starting a vacation like this,” Google Wallet executive Alan Stapelberg wrote in a [blog post](#) last week. “You arrive at the airport and breeze through security by tapping your phone to a reader, scanning your boarding pass and ID. While waiting to board, you grab a drink at an airport bar, tapping your phone to prove your age. When you arrive at your destination, you find your rental car and leave the lot without stopping for an in-person ID check because you already provided the necessary information in the rental car app. You check into your hotel online and your key is issued straight to your digital wallet. You do all of this with your phone — no physical wallet required.”

Though a bit late, in June, 2024, Norway passed legislation requiring use of cash!

REMINDER

New Credit Card Fees & Lack of Privacy

It is starting – Use cash as much as possible – use credit cards or digital only if there is no other alternative.

The Bank of Canada is admittedly planning for digital currency. It claims that it will not replace cash – BUT – and here is the caveat, it will continue to use cash “notes for as long as Canadians want them.”

In other words, if you don't use cash, you will lose it. Reading between the lines, it is clear that the Gov't will simply issue press releases and polls showing most Canadians don't use and/or don't want cash, and then the Bank of Canada will claim it has to eliminate cash because few people are using it or want it, and it is, ironically, too costly to maintain printing the notes and coins.

<https://www.bankofcanada.ca/digitaldollar/#what-digital-canadian>

Bill Still, the US Patriot and author of the incredible documentary, *The Money Masters*, outlines the results of recent polls showing that 86% of Canadians fear the digital dollar!!!
Wow.

87% of Canadians have heard or are aware of the Bank of Canada's CBDC (Central Bank Digital Currency), and 82% are strongly opposed to it!!

It will cost them too much in lost business.

CASH IS KING – Use it or lose it – and your privacy

The dangers of digital gov't ID and currencies are here... you need to use cash as much as possible. As recognized by Freedom Rising, there are many inherent dangers of using digital currency. What do you do, not if, but when:

The internet is down

There is a power outage

The card reader malfunctions

Your phone battery dies or doesn't work for other reasons

WE SUGGEST YOU CONSIDER THE FOLLOWING AS WELL:

Your phone is stolen

Your passwords are co-opted

Your credit/debit card strip is damaged – needs replacing

There are errors in relation to the quantum of \$\$ on your card

Gov't limits your purchases/CRA liens the balance on your card

AND MANY OTHER DANGERS

CLEAR has promoted the non-use of digital currencies and credit/debit cards as much as possible, for years.

Suggested Solution:

Withdraw money on Saturday/Sunday from the bank or bank machine, and then leave your money at home if you are scared to carry it with you, and just carry the amounts of cash for each day's purchases for the week.

NO MORE CARDS!!!! NO EXCUSES!

I bet they're using the bank run as a way of getting us into cashlessness. They'll say there's not enough cash to withdraw from banks, but we can still move stuff around digitally, because that won't cause a bank run.

And voila, instant cashless society.
CBDCs will soon follow.
